II. Significant Issues:

a. Congressional –

There were no specific congressional inquiries to EPA for environmental investigations at Naval Station Treasure Island during this period.

b. High-Profile Items:

On August 17, 2010 a ceremony was held to commemorate the agreement of terms for the transfer of former Naval Station Treasure Island from the Navy to the City of San Francisco. The Secretary of Navy (Mr. Ray Mabus), the Speaker of the House (Nancy Pelosi) and the Mayor of San Francisco (Gavin Newsom) signed the conveyance agreement document. The draft FOST for Parcels 1 through 9, Submerged Parcel (Excluding Parcel 27), the Battery Site, Torpedo Building, Site 28, and East Side Freeway On-Off Ramps is currently under review by the agencies.

c. Delays in Environmental Restoration Actions:

None at this time – the Navy will prioritize cleanup to facilitate transfer of some parcels.

III. Issues Impacting Transfer:

The Site 28 No Action ROD must be finalized and signed before the site can be transferred as part of the 2010 FOST. Site 30 will no longer be included in the 2010 FOST due to remedial action and radiological scanning (at the request of CDPH) at Site 31. The Site 31 activities and scanning results may impact the path forward for Site 30 (directly adjacent to Site 31).

IV. Staffing/Funding Issues:

Kristine Katin is currently on a detail assignment to another division within EPA. Melinda Garvey is the US EPA RPM as of July 2010.

V. MOU Support Update:

The EPA RPM participates in BCT meetings and reviews documents as provided. EPA continues to support the Navy's efforts to clean up and transfer the property.
